

Apprenticeship Plumbing and Heating - Plumbing route

What is this Apprenticeship about?

This Apprenticeship will help to upskill existing staff or we can help you recruit new apprentices who wish to pursue this career.

Apprentices will gain the skills to work under minimal supervision to complete the installation & maintenance of domestic hot water, cold water, sanitation, drainage, rainwater systems, central heating systems & components.

Our tailored training will precisely match your needs, resulting in a well-trained, capable workforce. Delivery will be a mix of day release using our state of the art facilities & in your workplace, providing a cost effective method of training & upskilling your staff. An industry specialist Assessor will support you & your Apprentice during the process.

How is this Apprenticeship delivered?

On and off the job training in the workplace, and weekly day release to Stoke on Trent College

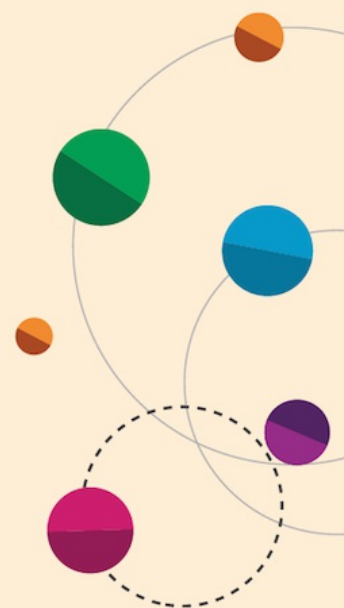

What else do I need to know?

Main intake is September, with options for mid year starts – January / April subject to numbers.
