

L3 Advanced Apprenticeship Engineering Manufacture

What is this Apprenticeship about?

This Apprenticeship will help to upskill existing staff or we can help you recruit new apprentices who wish to pursue this career.

Apprentices will develop the skills, knowledge & competence requirements to work at a craft or technician level carrying out a variety of engineering & manufacturing processes. Our Apprentices participate in national competitions such as World Skills.

Our tailored training will precisely match your needs, resulting in a well-trained, capable workforce. Delivery will be a mix of day release using our state of the art facilities & delivery in the workplace, providing a cost effective method of training & upskilling your staff. An industry specialist Assessor will support you & your Apprentice during the process.

How is this Apprenticeship delivered?

On and off the job training in the workplace, and weekly day release to Stoke on Trent College

What else do I need to know?

Main intake is September, with options for mid year starts – January / April subject to numbers

Apprentices would gain a range of skills, which might include:

Installation and commissioning of engineering equipment and systems:

OR installation and commissioning of heavy engineering equipment such as turbine generators; gas compressors; process equipment; chemical reactors and pressure vessels

OR fabrication and welding skills using drawings and templates to mark out, cut and shape materials then using manual or automated processes including thermal cutting equipment to join materials as required

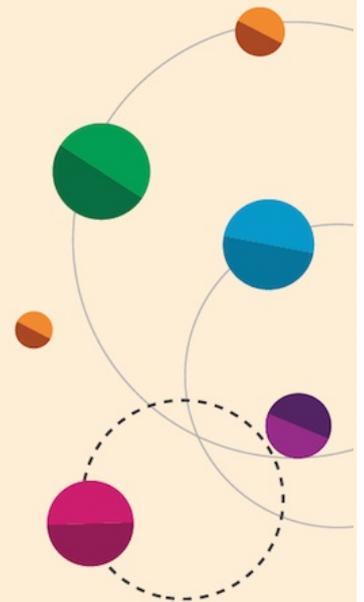

If you are looking to improve your skills or change career direction, our Apprenticeship Recruitment Team can discuss your needs and advise you on finding a suitable employer
