

# Apprenticeship Standard (3) - Civil Engineering Technician

## What is this Apprenticeship about?

This Apprenticeship will help to upskill existing staff or we can help you recruit new apprentices who wish to pursue this career.

Apprentices will develop a broad skills base to work in areas which could include sustainable construction, structural integrity, geotechnics, materials, tunnelling, marine and coastal engineering, water, waste management, flood management, transportation and power.

Our tailored training will precisely match your needs, resulting in a well-trained, capable workforce. Delivery will be a mix of day release using our state of the art facilities & in your workplace, providing a cost effective method of training. An industry specialist Assessor will support you & your Apprentice during the process.

## How is this Apprenticeship delivered?

On and off the job training within the workplace, with weekly day release at Stoke on Trent College, Burslem Campus. You will be able to access our state of the art facilities whilst undertaking your apprenticeship

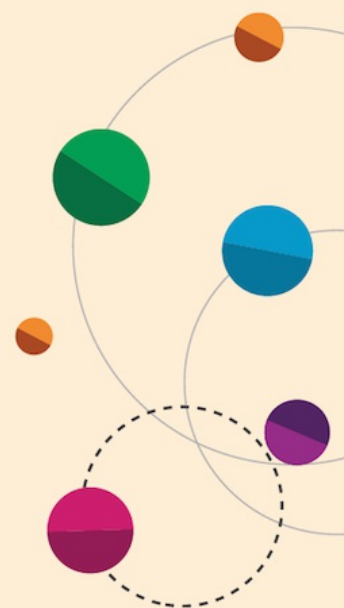

## What else do I need to know?

Main intake is September, with options for mid year starts – January / April subject to numbers
