

Digital Skills 1 Day Workshop

**Two, three hour training workshops to assist customers in starting their digital journey
At either E1, E2 or E3:**

The Basic Digital Skills Report 2018 found that around 4.3 million (8%) of the UK population have no Basic Digital Skills and 11.3 million adults (21%) do not have all five Digital Skills of:

- 1. Managing information**
- 2. Problem solving**
- 3. Communicating**
- 4. Creating**
- 5. Transacting.**

Having no or lacking digital skills is a barrier for adults in their careers. The report found that those without/lacking digital skills:

- earn on average £13,000 less than those with all five digital skills**
 - are less likely to progress in their careers**
- miss out from significant savings that can be made through online transactions**

This small, single unit, qualification has been developed to support learners to gain digital skills within a life-related context.

**Come for the day
Become confident with your own digital equipment
Learn to surf the net
