Professional & Technical Education

Incentive payments for hiring a new Apprentice.

From 11 January 2022, employers can apply for a payment of £3,000 for new Apprentices of any age who have an employment start date of 1 October 2021 to 31 January 2022. These Apprentices must also have an Apprenticeship start date of 1 October 2021 to 31 March 2022.

Applications open on 11 January 2022 and close on 15 May 2022

For Apprentices with an employment start date from 1 April 2021 to 30 September 2021, applications are now closed.

The incentive payment is in addition to the £1,000 employers already receive for hiring an Apprentice:

- aged 16 to 18 years old
- aged 19 to 24 with an education, health and care plan or who has been in the care of their local authority.

Hire an Apprentice who has been made redundant

You can also use a new government service to help you hire Apprentices who have been made redundant.

Many of these Apprentices may already have the skills and knowledge you need. Hiring a new Apprentice in this way could mean you have a work-ready Apprentice who can quickly add value to your business, shortening the time you'll see a return on your investment.

It also means you are supporting an Apprentice to complete their training and achieve their Apprenticeship. If you hire an Apprentice that has been made redundant, you can apply for incentive payments for hiring a new Apprentice.
